Access And Mobility
Bathrooms & Stairlifts

You need your new bathroom to be safe, stylish and easy to use.
Welcome to Access And Mobility Bathrooms.

“ I frequently encounter customers dealing with mobility challenges, and for most of them, safety and independence hold utmost significance in their daily lives. The good news is that you now have the opportunity to transform your bathroom, ensuring a comfortable and secure bathing experience once more. Navigating the various solutions available for your specific needs can be overwhelming, but with Access And Mobility Bathrooms, you can rest assured that you'll receive expert guidance and access to a wealth of information to make an informed decision. Achieving self-care and leading a fulfilling life entails various adjustments, and one of the key steps is adapting your bathroom to cater to your unique requirements. ”

Lee Brand Managing Director

Why choose Us

As a caring business we pride ourselves in offering the best products and service to meet our customers individual needs. We are proud of our excellent reputation as providers of quality, easy access bathrooms.

Our range of walk-in baths and showers are easy to use, ideal for mobility problems and in most cases can be fitted within a few days, so you can enjoy the full use.

Choosing the right product for you and your needs

Selecting the ideal product for your specific needs is a priority for us. Our dedicated care advisors will invest time in discussing your requirements with you and presenting the available products. This way, you can confidently make an informed decision regarding the most suitable option to meet your needs. We recognize that each individual is unique, with distinct preferences and requirements. That is why our extensive range of products is designed to accommodate a wide array of needs.

Full bathroom makeovers

Our comprehensive bathroom makeover service covers everything, ensuring a hassle-free experience for you. From the initial design and planning to the removal of your old bathroom suite, and finally, the installation, including fittings, electrics, plumbing, flooring, and wall finishes, we prioritise listening to your needs at every step of the process. Throughout the journey, you will have a dedicated installation manager to ensure everything proceeds seamlessly.

With our total care service, you can be confident that from your very first call to the completion of your new bathroom, you will receive the utmost dignity and respect. Our specially trained advisors will always be available to address any questions you may have.

About Us

At Access And Mobility Bathrooms, we are more than just a business; we are a team dedicated to enhancing the lives of individuals with unique needs. Our journey began with a simple yet profound commitment: to provide easy access bathrooms that promote comfort, independence, and well-being. Today, we take immense pride in our role as trusted providers of quality solutions, transforming the way people experience their daily routines.

Our Mission

Our mission is clear and unwavering: to make everyday life more accessible and enjoyable for individuals with mobility challenges. We understand that a bathroom is not just a space; it's a sanctuary for comfort, a hub of independence, and a place for rejuvenation. Our commitment to excellence in design and service is rooted in our mission to ensure that everyone can enjoy the benefits of a truly accessible bathroom.

Quality and Accessibility

At Access And Mobility Bathrooms, quality and accessibility go hand in hand. Our range of easy access baths and showers is designed with meticulous attention to detail. These products are not only user-friendly but also a testament to our dedication to providing the highest standards of quality. We firmly believe that accessibility should never be compromised, and our products reflect this belief.

I would highly recommend this company if you have a disability. Nothing was too much trouble, all my needs were considered and excellent advice given. Quality finish, reliable and hard working. Love my new bathroom and most of all have my independence back.

James - Customer

30 Years Industry Experience

We have been in the mobility bathroom adaptation industry for over 30 years strong.

Installed In 8 Weeks*

We pride ourselves on getting our customers accessibility needs in place as soon as we can. 8 weeks is all it takes.*

Access And Mobility

Walk In Showers

Our Walk-In showers are independent bespoke cubicles with a slightly raised shower tray or level shower tray. A walk-in shower has many benefits for able-bodied and people with mobility issues.

They are cheaper to install than a Wet Room Shower and update bathrooms to a chic, modern standard without compromising accessibility. Even with a small lip.

- If the bathroom is suitable, it is possible to sink the low-level shower tray into the floor, giving near-floor level access.
- Quicker option to install taking as little as 3 days, with the added benefit that you may not have to re-fit the full bathroom, an ideal solution as a bath replacement for a shower.
- The shower trays are non-slip, anti-bacterial and easy to clean.
- Should you require more assistance, you can have safety grab rails installed at convenient locations or even a foldable shower seat for extra comfort.
- For the shower cubicle's interior walls, we recommend that if the whole bathroom is not being replaced, the walls are upgraded to ensure no water can enter.
- We have an extensive range of wall panels that are quicker to install with less disruption. Wall panels are 100% watertight, have discreet joints, and require minimal maintenance.
- We have over 25 designs available, so there will be something to suit your style. Should tiling be required, then this is a service we can also offer.

We were so lucky to find this fantastic company! Right from the outset, Lee had a vision for our old bathroom that no other suppliers had imagined.

Geraldine - Customer

Benefits of Walk In Showers

Walk-in showers are especially designed for people with mobility issues. The floor of the shower features a slip-resistant texture.

If you need a larger showering area and space is available there is also a range of sizes to choose from. There is something guaranteed to fit your requirements, be they for wheelchair access or a fixed or folding shower seat.

But a walk-in shower is more than a practical solution. Its low profile is less obtrusive than a conventional shower and reflects the sleek, minimalist look of modern bathrooms.

How easily is it to replace my bath with a walk-in shower?

One of the best features of walk-in showers is that they are designed to fit exactly the same footprint as a conventional bath tub. This means that adapting your bathroom from a bath to a walk-in shower is extremely easy.

How can We help

As a specialist bathroom adaptation company, we offer a wide range of solutions that can be tailored to your individual needs.

We know that every client's needs are different. That's why we start with a visit from one of our home assessors. This is completely free and without any obligation to use Access and Mobility bathrooms for your bathroom adaptation.

Your Peace of Mind

Safety is our top priority

At Access and Mobility Bathrooms, we know that your safety and peace of mind are paramount when it comes to bathing. We understand that you want to bathe with confidence, ensuring that the experience is not only safe but also relaxing and thoroughly enjoyable. That's why we take great pride in offering a range of bathroom solutions that are designed with your safety and comfort in mind, without compromising on aesthetics.

Safety Meets Style

Our commitment to your safety is evident in every detail of our walk-in baths. We believe that safety should be seamlessly integrated into the design without sacrificing the look and feel of your bathing space. With Access and Mobility Bathrooms, you can enjoy both peace of mind and a beautifully designed bath.

Multiple Safety Features

When you choose Access and Mobility Bathrooms, you're selecting a bathroom that goes above and beyond in terms of safety. Our bathrooms are carefully designed to include multiple safety features. These features ensure that you can bathe without worry, knowing that you are protected at every step of your bathing journey.

Your Safety, Our Priority

Your safety is our top priority, and we believe that it should never be compromised. Access and Mobility Bathrooms are the result of our dedication to creating bathrooms that provide a truly safe and enjoyable bathing experience. We invite you to experience the difference that our safety-focused designs can make in your daily life.

Tailored to Your Needs.

Access And Mobility

Wet Rooms

Wet room showers provide maximum comfort and accessibility, eliminating barriers and reducing the risk of tripping or stumbling.

They offer a stylish and attractive alternative to traditional bathrooms, without the appearance of mobility bathrooms. For a fully future-proof bathroom, a wet room with full level access shower is the best option.

- All services, including drains, are below floor level, giving complete free access with either an open room or the addition of a shower enclosure screen.
- Ideal for installation in small spaces such as en-suites. Where space is at a premium, they are a perfect solution to your bathing problem.
- flooring will be R11-rated slip-resistance, and the designs are very stylish and modern.
- Wet rooms are fully acceptable for wheelchair and shower chair use should they be required now or in the future.
- We have an extensive range of wall panels that will complete the look of your bathroom
- Optional Screens also add a sophisticated touch to a wet room's design and allow you to create different zones.
- We have a range of wall-hung products, such as mirrors and vanity units which can be installed at the correct height for you.
- We will advise on lighting, which is an essential safety feature. A well-lit bathroom is easier to manoeuvre around.

What a lovely company, who replaced my very old bathroom with a beautiful quality new one and I love it, thank you!

Theresa - Customer

Benefits of Wet Rooms

- ▶ All services, including drains, are below floor level, giving complete free access with either an open room or the addition of a shower enclosure screen.
- ▶ Ideal for installation in small spaces such as en-suites. Where space is at a premium, they are a perfect solution to your bathing problem. flooring will be R11-rated slip resistance, and the designs are very stylish and modern.
- ▶ Wet rooms are fully acceptable for wheel chair and shower chair use should they be required now or in the future.
- ▶ We have an extensive range of wall panels that will complete the look of your bathroom
- ▶ Optional Screens also add a sophisticated touch to a wet room's design and allow you to create different zones.
- ▶ We have a range of wall-hung products, such as mirrors and vanity units which can be installed at the correct height for you.

Built-in Safety Systems

Safety is at the forefront of our design. Total well-being includes peace of mind, so our baths come with built-in safety systems such as slip-resistant surfaces, grab bars, and low-entry thresholds, ensuring you can bathe comfortably without worry.

Tailored to Your Needs.

Access And Mobility

Walk-in Baths

Our low-level door-opening walk-in baths provide safe and comfortable bathing for those with limited mobility, promoting independence and healthy living.

They come in compact sizes for sitting, but also offer full-length options for those who prefer to lie down.

- ✓ They are loaded with safety systems, have non-slip interiors and, with the addition of grab rails, minimise the risks of slipping or falling.
- ✓ Negates the need for the bather to step over the high edge of the bath when entering and exiting.
- ✓ We can install a full-length walk-in bath with a power lift seat, and the seat will lower and raise the bather safely at the touch of a button.
- ✓ Variobath filling options, including fillers with push buttons and rotary controls to avoid the use of taps and for safety.
- ✓ The baths are designed to drain exceedingly quickly, so you are sat in the bath for the minimum time necessary.
- ✓ Privacy screens and upgrade options such as chromotherapy light systems to promote balance and healing.
- ✓ Upgrade options to luxury hydrotherapy spa systems will help the bather unwind, relax, aid arthritic discomfort, and soothe aches and pains.
- ✓ Our installers will complete all the work to the highest standard. We will recycle all the waste from the original bathroom and clear the site.

Rocky and Bill carried out the upgrade to my bathroom, They were very professional in every way. I was impressed by their attitude nothing was too much trouble.

Access And Mobility Wall Panels

A popular wall covering alternative to bathroom tiles, wall panels are a firm accessible shower room or mobility wet room favorite due to their water-proofing properties and maintenance-free finish.

We understand the importance of offering diverse and effective solutions for accessible bathrooms, and that's why we proudly present an extensive range of accessible bathroom wall board options. Each option boasts unique properties designed to cater to your specific needs and preferences.

Options include:

- > UPVC Wall Boards
- > Solid Core Wall Boards
- > Acrylic Wall Boards

Professional Installation

To further enhance safety, our team of experts ensures professional installation to the highest standards. This not only guarantees the effectiveness of safety features but also provides you with peace of mind knowing that your accessible bathroom is expertly crafted.

UPVC Wall Boards.

Known for being durable, hard wearing and easy to clean UPVC wall boards are a popular wall covering option for accessible, mobility and disabled bathroom design.

Solid Core Wall Boards.

Available in a wide range of colours and finishes solid core wall boards are commonly constructed from MDF or Plywood and covered in a waterproof laminate.

Acrylic Wall Boards.

Acrylic wall boards are high gloss wall boards that provide a similar luxury and shine to ceramic tiles

Benefits of Wall Panels

There are several benefits to installing wall panels as part of your accessible bathroom design, making them one of the most preferred wall covering options.

Typically speaking wall boards are:

1. Easy To Clean
2. Low Maintenance
3. A Cheaper Alternative
4. Available In A Range Of Designs

Full Design And Installation Service Of Accessible Bathroom Wall Panels.

To find out more about wall boards as an alternative wall covering to compliment your accessible bathroom design get in touch with a friendly member of our team.

Alternatively you can book a free design appointment online for a senior designer to visit you at home.

Frequently Asked Questions

WHY IS SAFE BATHING SO IMPORTANT

Regular bathing is something we all do. It is the most natural thing in the world, and it is important that - whatever your mobility issue or disability might be - you are able to do it safely. Our customers need to be able to bathe safely to minimise the risk of a fall or other injury so they can keep their physical health and independence as long as possible. The design of your bathroom needs to be safe while in use but also accessible should you need assistance.

WILL I FEEL PRESSURED TO SIGN CONTRACTS?

Absolutely NOT, we do not class ourselves as a direct sales company, we do not use independent salespersons and surveyors. When you contact us to arrange a visit you will deal with me personally throughout the full design and assessment process, we are then happy to leave a quotation for you to consider. Should you then decide to proceed contracts can be agreed and signed but not until you are ready and happy with what is being offered. Should you proceed then we aim to start your install within 8 weeks.

WHAT DO YOU OFFER CUSTOMERS

A complete and versatile service that is individual and meets our customers needs from a safety point of view, while also considering personal tastes and preferences. Creating a safe bathing environment is very much about how a bathroom is designed and laid out and we really take our time over this, whether it's fitting a walk-in shower or bath or completely transforming the bathroom into a wet room.

WHAT IS THE BENEFIT OF USING A LOCAL FAMILY RUN BUSINESS?

After being in this industry for many years (over 30!!) I have worked with many different companies in the past and the concerns I have always had with National Companies or larger corporations is the lack of personal customer connection.

I'M CONCERNED ON HOW THEIR NEW BATHROOM WILL LOOK?

One of the top questions I get asked is whether you can have a bathroom that doesn't look like a mobility bathroom. I always explain to that it can be as modern and stylish as you would like it to be. We have a wide range of walk-in showers, baths and other products, so can offer a great choice. Ultimately, it is down to you to choose the individual items,

DOES BEING ABLE TO BATHE SAFELY HAVE POSITIVE MENTAL BENEFITS?

Yes. People feel so much better when they can bathe safely at home. It means they are able to bathe much more regularly, and it lifts the anxiety from their shoulders. Keeping clean brings about a sense of feeling better in yourself. It can also allow you to stay in your own home for longer - and some of our customers have lived in their homes for up to 50 years. Some also have carers and having a safe bathing environment can avert the need to move into residential care. The longer people can stay at home, the better they tend to do mentally and physically.

Our Team

Meet the dedicated team behind Access and Mobility Bathrooms – a group of passionate professionals committed to transforming your bathing experience. Our team comprises experienced designers, installation experts, and customer support specialists, all working cohesively to ensure excellence in every aspect of our services. With a shared commitment to accessibility, safety, and customer satisfaction, our team is here to guide you through the process, from personalised consultations to expert installations. We believe in the power of a supportive team, and each member is driven by the goal of making your bathroom not just functional but a space that truly enhances your daily life.
